

Blue Line Policy

There are no player positions in the U5 - U8 age divisions. The intent of no player positioning is to ensure that all kids get to play different roles and touch the ball as much as possible. It also ensures that kids are not "pigeon-holed" into particular positions at such an early age.

All U5-U8 fields will be divided into 4 sections, indicated by blue lines. All players (offensive and defensive) should be in the area where the ball is or the area next to it. No player should be 2 areas from the ball.

Please remember that you cannot park a player defensively in order to act as "goalie" or offensively, aka: Cherry-picking.
